## **Explanation of Norrønafly Capability list:**

This list provides a complete work scope. All models/partnumber Norrønafly do maintenance on is to be listed in the capability list. Norrønafly will continuously revise its capability list whenever new models arrive to the workshop.

### **NDT:**

In addition to service and overhaul of the models listed in this document, Norrønafly also performs NDT inspection of components and aircraft structure. Norrønafly has a FAA approval as well as an EASA approval for NDT inspection, and may therefore issue a FAA 8130-3 or EASA Form One.

### ***Norrønafly can perform these NDT methods:***

Penetrant Inspection (PT)

Magnetic Particle Inspection (MT)

Eddy Current Inspection (ET)

Ultrasonic inspection (UT)
